

Dear Parents and Student, (Pre-Algebra)

The weekend certainly was not uneventful and the consequences of it will be remembered for some time. What a great God we serve and I am thankful that he is all knowing and all powerful. We need to prayerfully and patiently pray for guidance through uncharted waters.

Lesson plans are detailed on Sycamore.com. However, I am including a list below. You will need your textbook and I am including graph paper for 9.1 b.

Pre-Algebra Assignments are as follows:

9.1 The Coordinate Plane a

pp. 346-349: Problems, 2, 4, 8, 10, 12, 16, 18, 22, 24, 28, 32, 34, 36, 46, 52.

9.1 The Coordinate Plane b

p. 348: Problems, 18-29. Make 2 separate graphs (given) one graph for Problems 18-23, and one graph for Problems 24-29.

11.1 Square Roots a

pp. 450-454: Problems, 2, 3, 5, 6, 9, 10, 12, 13, 21, 22, 23, 24, 29, 40, 44.

Utilize and study all examples that are available in the book. They will help you with your problems. I will be available by phone. Spend time practicing the Example Problems. See if you can do those and then look for similar problems assigned.

My Home Number is: (518) 783-1624. I have an answering machine and will get back to you as soon as possible. If it is busy, try again. I can even meet you at the school if necessary.

Thank you all for your willingness to work on your own but do not quit, we can persevere.

Sincerely,

Dr. Cashman
