

Dear Parents and Students,

What a difference a day or two make!! Please be aware that you and the school are in God's hands. He is all knowing and all powerful and for these reasons we need to patiently, prayerfully seek his guidance.

I have prepared lessons which are detailed on Sycamore.com. However, I will list them below. You will need your Textbook and for some problems you will need graph paper (next week for Algebra II).

Algebra II assignments are as follows:

9.1 Simplifying Rational Expressions

pp. 384-387: Problems, 2, 4, 6, 8, 10, 12, 14, 16, 22, 26, 28, 40, 48, 50

9.2 Multiplying and Dividing Rational Expressions

pp. 388-391: Problems, 2, 4, 6, 8, 12, 16, 20, 24, 26, 28, 32, 24, 26, 48, 50

9.3 Adding and Subtracting Rational Expressions

pp. 392-396: Problems, 2, 4, 8, 10, 12, 16, 18, 22, 24, 28, 32, 34, 36, 46, 52

Utilize and study all examples that are available in the book. They will help you with your problems. I will be available by phone but please do not call the very instant you open your book. Spend a bit of time practicing the Example problems. See if you can do those and then look for similar problems assigned.

My Home Number is: (518) 783-1624. I have an answering machine and will get back to you as soon as possible. If it is busy, I am likely talking to one of your classmates?! Call again. I can even meet you at the school if necessary.

Thank you all for your willingness to work on your own but do not quit, we can persevere.

Sincerely,

Dr. Cashman
